

Men's Health: Improve Male Sex Function

There are many reasons why men may suffer from a low libido. Here are a few of the most common reasons for losing your "mojo": suboptimal amounts of testosterone in the body, stress, not enough sleep, unresolved conflicts in the relationship, a desire to control or punish spouse, a way to have power over spouse, a sexual orientation conflict or confusion, anger, past sexual abuse, working long hours, too much alcohol consumption, male andropause, cardiovascular disease, diabetes, Parkinson's disease, endocrine or neurological disorders, hypothyroidism, depression, family worries, anemia, arthritis, chronic pain, antidepressants, tranquilizers, antihypertensive medications, illegal substances such as heroin, cocaine and marijuana and infidelity.

**Male Power**

Male Power is an exceptional herbal formula specially designed for men to help regain sexual potency and to restore and maintain general well-being. Male Power is highly effective because, like all forms of traditional Chinese medicine, it addresses the whole body, not just the obvious symptoms. And what sets this product apart is that as well as helping the distressing condition of male sexual dysfunction, it also boosts all-important kidney

**MalePower**

energy, producing a wide range of beneficial health effects. Male Power consists of a combination of herbs tradition-ally used to improve vital energy and relieve the symptoms of poor kidney function.

**Male Power:**

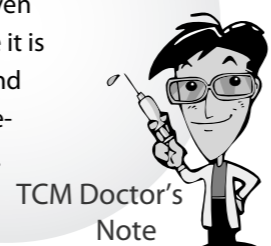

- Improves male sexual function and libido
- Supports inner organ function and general well-being
- Counteracts the symptoms of ageing by strengthening the physique and overcoming fatigue
- Reinforces lung and kidney function, reducing frequent night-time urination

**Male Power** was developed after more than a decade of scientific research and clinical trials at the Academy of Traditional Chinese Medicine in Beijing by a team headed by Professor Xiao-cheng Yan and Professor Jia-li Yuan, who now live and work in Sydney, Australia. Basing their experiments on knowledge of Chinese herbal medicine handed down over centuries, they tested almost 100 herbs to produce the optimum combination that became Male Power.

In their clinical trials, 152 patients with sexual dysfunction problems, aged between 25 and 76, were tested.

**Male Power** proved effective in

I believe that Male Power is just as effective as Viagra, but even better because it is all-natural and has no side-effects.

TCM Doctor's Note

89 per cent of cases.

**Male Power** has been used in hospitals in China for more than 10 years. Tens of thousands of patients in China have been helped in that time. Research showed that most patients with sexual dysfunction suffer from poor kidney function – in traditional Chinese medical terms, lack of kidney yang.

According to traditional Chinese medical theory, the kidneys store the pre-natal essence inherited from one's parents, which governs growth, development and, in later life, reproduction.

If a man's kidneys are strong, he can produce a powerful erection. If the kidneys are weak, sexual dysfunction is one obvious result. Weak kidneys are traditionally considered a cause of hormonal imbalance.

In contrast to drugs containing sex hormones that are used to stimulate the body for a short time, Male Power is a gentle tonic that produces long-lasting results.
